

Hearts for Home Care

WHY should I register to become a Hearts for Home Care (H4HC) Advocate?

You have the power to help change the future of home care for yourselves, employees, and consumers alike. Let your voice be heard by the legislators and regulators who make decisions about home care. **H4HC Advocates are ANYONE in support of home care – not employees of BAYADA only.**

Increased reimbursement rates and higher care standards mean not only better-quality care for consumers, but fair and competitive wages for employees. These decisions affect everyone in the home care industry—**including you!**

Here are just some of the ways you can help change the future of home health care:

- Build relationships with your direct constituent legislators
- Send emails and letters to government officials
- Respond to home care industry Action Alerts
- Share stories with public officials that show the value of home care
- Share Hearts for Home Care social media posts with your friends
